TWO SMALLPOX CASES
Reported to Health Officer Tuesday—Patients Are Charles Regan and Elijah Dyer.

Tuesday two more cases of smallpox were reported to the city health officer, Dr. W. P. S. Keating. The patients are Charles Regan, aged 17, and Elijah Dyer, aged 27. The first case was reported to the health officer by Dr. O. W. Dyer, and the second by Dr. E. E. Wilcox. The Regan case was reported at 11 o'clock Tuesday forenoon and the other about noon. Dr. Keating attended to the Regan case immediately. The young man is a son of Timothy Regan, who is employed by John G. Hill, and he had the disease when a young man, and therefore was not quarantined, but his clothes were disinfected and he was permitted to go. The mother and a sister, Miss Mary, are under quarantine. The family lives at 78 Union street in a two tenement house owned by the John Hickey estate and occupied by the families of Mr. Regan and William A. Costello. The Regan family resides in the lower tenement. The Costello family, comprising Mr. and Mrs. Costello, two children and an aunt, are not to be quarantined. James J. Richmond has been assigned to act as police officer for the day shift.

Elijah Dyer, the man whose case was reported to the authorities about noon, lives at 1235 Main street with his mother, in a four tenement house. The Dyer family occupies the apartments on the lower east side of the house. Albert Coutu family live over the Dyer's, and on the other side of the house reside the families of Paul Coutu and Jeremiah Demarech. There are seven children in the house. William Grady has been assigned as police officer for the day shift.

Mrs. Chappell, a sister of Elijah Dyer, who called at the house of her mother and brother Monday, had her husband, John M. Dyer, fumigated Tuesday by Health Officer Keating.

The origin of the disease is still a mystery. Young Regan is employed by J. O'Sullivan, and works out of doors most of the time at his trade of a carpenter. Dyer has been employed in the dyeing department at the local plant of the American Thread company, but had not been working for about three weeks. The city health officer stated Tuesday afternoon that the breaking out of the disease in the city, as it has, was quite baffling. The Vachon girl, who was first stricken, had not been working for some time before she contracted the disease in an unknown manner. The Regan case has no connection with the Vachon one, and the last reported case is more than a mile away from either of the others.

Mayor D. P. Dunn and Chief E. H. Richmond were on hand Tuesday at both houses to see that all requirements of the law were properly complied with. The mayor first considered the advisability of calling a special meeting of the board of aldermen to discuss the situation, but later stated that unless other cases appeared he would wait until the regular meeting of the board, next Monday evening.

City Health Officer Keating reported the two additional cases to the board of health Tuesday afternoon. He ordered Dr. Keating to go ahead and look out for the cases. It is believed that it is better and cheaper to keep the cases as they are, rather than to isolate them. Dr. Keating was in communication with the state board of health Tuesday afternoon relative to the situation in Willimantic, and was told he was entirely justified in the precautions taken.
